IoT ready Flat Rate SIM Card

Termékkód: LP105

All-inclusive SIM card for IoT connectivity. It is a pre-paid offering to connect IoT devices with long term connectivity, including all necessary features such as data allowance, SIM card cost, APN, VPN.
Offers managed connectivity services for low bandwidth IoT applications. It has developed a disruptive price model for IoT connectivity. The SIM card does not allow sending SMS.

Currently the IoT SIM Card footprint includes more than 100 countries. More information about the coverage at 1NCE website.

SIM card lifetime is 2.5 years with 5 minutes interval, 5 years with 10 minutes interval.

Műszaki adatok

GENERAL TECHNICAL DATA	
Data volume	500MB (Up to 500,000 Cycles)
Data Retention	2.5 years with 5 minutes interval, 5 years with 10 minutes interval
Operating temperature	-25°C to +85°C
Coverage	global
